Bureau of Land Management
Grant County

LONG CREEK COMMUNITY WILDFIRE EVACUATION PLAN

PURPOSE

This plan is intended to be used in the event that the [insert wildfire name] creates a need for notification and evacuation of the citizens in and adjacent to the incident.

INTENT

The Grant County Sheriff's Office is legally charged with the responsibility of evacuation. In order for adequate planning and decision making to occur before the need, it is important that the Sheriff's Department has advance notice and be included in the earliest possible discussions regarding evacuation needs.

GENERAL DESCRIPTION OF THE AREA

This plan will cover the Long Creek Wildland-Urban Interface (WUI) areas generally described as (choose N, E, S or W) of the fire. Long Creek is accessed north and south on US Highway 395, west by Oregon State Highway 402 and east by County Road (CR) 18. The current population is ~197. Long Creek has a volunteer fire department.

TRIGGER POINT

If the fire is deemed to threaten the identified tactical area(s), the Operations Section Chief will request activation of the appropriate evacuation level based on current and predicted fire behavior. Upon recommendation by the Operations Section Chief, the agency decision makers will convene and re-evaluate the threat using the following criteria:

- Fire crosses or approaches pre-identified lines
- Time of day (i.e. early morning vs. mid-afternoon)
- Weather (current and expected)
- Fuels and fire behavior
- Sustained run vs. spot fires
- Probability of success with available resources

ACTIVATION

The _____ Fire Incident is situated primarily within or adjacent to the Long Creek Wildland Urban Interface area, within the Oregon Department of Forestry Central Oregon District and Grant County Oregon. This community evacuation plan is activated by calling the affected agency representative:

Steps for activation:

1. The need for a possible evacuation will be identified by Operational Personnel.
2. The request for evacuation will be submitted or concurred by the Incident Commander or his designee.
3. Contact communications to place the request as needed.
4. The IC or designee will inform the agency representative of the current and the predicted situation.
 - Identify the affected area.
 - Ask that a liaison from the affected county report to the ICP.
 - Ask that the appropriate evacuation be implemented.
 - Ask for confirmation of shelter activation / location from Red Cross.
 - The IMT Information Officer will coordinate the development of a media release of evacuation / shelter decisions.

**** Evacuation Location will be determined by American Red Cross if activated.**

****Other Considerations: Oregon State Police will evaluate US and State Highways for closures at each juncture of evacuation and make that determination in conjunction with the Incident Safety Officer.**

EVACUATION COORDINATION

Coordination:

- Evacuations will be coordinated between the Incident Commander and the Sheriff’s representative.

Communications:

- For field coordination of evacuation communications
 1. Use ODF Red Net, RX 151.3400, TX 151.3400, TX Guard Tone 156.7
 2. For backup use Oregon Search and Rescue RX 155.8050, TX Guard Tone 156.7

Evacuation Process:

- Visual identification notification
 1. Green colored ribbon at driveway designates “**Occupied**” contact made
 2. White colored ribbon stretched across driveway designates “**Not Occupied**”
 3. Yellow colored ribbon indicates “**Danger Area – Do Not Cross**”

In the event of radio failure and/or lack of cell phone coverage use Grant County Fire radio:

EVACUATION AREA RE-ENTRY

The Incident Management Team (IMT) will provide recommendations to the Sheriff’s Office for private properties and the (enter agency name) for (agency abbreviation) property for lowering evacuation levels. The authority having jurisdiction is responsible for applying the change in evacuation level.

Considerations for safe re-entry:

- ✓ Public and firefighter safety
- ✓ Fire behavior / situation
- ✓ Fire traffic / activities
- ✓ Hazard tree mitigation
- ✓ Slope stabilization (rolling / falling debris)
- ✓ Utilities secured
- ✓ Visibility
- ✓ Minimizing economic consequences
- ✓ Community integrity

Citizens are advised that the advisory / evacuation level may change at a moments notice.

All re-entry requests shall be coordinated with the IMT Operations Section Chief before re-entry into evacuated areas will begin.

Grant County, Oregon

All requests for re-entry into the evacuated areas within Grant County shall go through the Grant County Sheriff. Persons entering the area shall provide identification and/or proof of ownership of the property in question. After approval, evacuees will be allowed re-entry based on the current situation.
